

Eureka!

Enrollment is for the first semester only.

Continuation classes will be offered as Sem. 2 classes starting in January

Eureka ! A « hands-on » math and thinking skills class for young inquisitive minds (Sem.1)

Grades: 1-3

Prerequisites: must be able to read numbers up to 10

Materials: folder; small dry-erase board (+ markers)

Class size: minimum 5, max 10

Class Fees: \$20 per student per month, **Materials:** \$10/semester

Synopsis: A “hands-on” math and thinking skills class presented through games and fun problems to solve. Scaled activities will keep each student challenged at his or her own level while working in a team, Geometry, graphing, fractions, number lines, logic, etc.

Instructor: Dr. Sylvie Kitzman. Born and raised in France. Graduate studies in both France and the US (veterinary medicine, biology, environmental sciences). Rotary International scholarship recipient. Experience as a wildlife veterinarian in Europe, Hawaii, and Australia. Has been a tutor and educational coach for more than 20 years working with special needs as well as gifted children both in French and English.. Homeschool mother of 5 (12 years). My youngest is now 10.

For additional information, you may contact DR. Sylvie Kitzman at sylvierk@gmail.com.
