

# GEOMETRY & ALGEBRA I

## GEOMETRY:

Seeing, Doing, Understanding

3<sup>rd</sup> Edition

ISBN: 0-7167-4361-2

Classes will begin on

Thursday Sept. 8, 8:45

Place: First Baptist Church

Chris Shaw was awarded his Bachelors Degree in Interdisciplinary Studies with emphasis in Mathematics from the University of Texas-San Antonio in 2000. Immediately following college, Chris became employed with Bank of America where he spent his next 3½ years working. Outside of his "banker's hours", Chris was attending American Christian College in which he obtained his Master's Degree in Counseling in May 2005. Over the next 5 years, Chris taught Algebra and Geometry in addition to being a guidance counselor for Southwest Preparatory School. Currently, he manages Mathnasium learning center, coaches grade school students at University bowling Center, owns his own t-shirt business, and taught his first year with BACH last year. His desire is to continue to use his gifts to bring hope, direction, guidance, determination, and motivation to a generation who, he believes, is searching for a positive leader to follow. When asked why he has chosen teaching he simply said, "Others can build buildings, roads, bridges, and even houses; but teachers build people."

## SNEAK PEAK OF TOPICS

- Deductive Reasoning (GEO)
- Lines and Angles (GEO)
- Functions, Polynomials, Inequalities (ALG)
- Perimeter and Area (GEO)
- Linear Equations, Quadratic Functions (ALG)

**FEE: \$70/MONTH PER CLASS**

**ALGEBRA I 8:45-10:15**

**GEOMETRY 10:30- 12:00**

MONDAYS, THURSDAYS

**CHRIS SHAW**

**UNITEDPERFECT@GMAIL.COM**

**210 - 414 - 7429**
